25 lakh opportunities posted on National Internship Portal: PM Modi

Throwing light on “on-the-job learning”, Modi noted the special emphasis given to it by several countries and highlighted the efforts of his government in providing focused internships and apprenticeships to ensure “outside-the-classroom exposure” for youngsters.

PM Modi spoke via a webinar which was the third in a series of 12 post-budget webinars organised by the government to seek ideas and suggestions for the effective implementation of the initiatives announced in the Union Budget 2023-24. | Image: ANI

New Delhi: The new National Education Policy (NEP) has reoriented education and skills according to the aptitude of youngsters and the demands of the future, Prime Minister Narendra Modi said on Saturday.

Throwing light on “on-the-job learning”, Modi noted the special emphasis given to it by several countries and highlighted the efforts of his government in providing focused internships and apprenticeships to ensure “outside-the-classroom exposure” for youngsters.

“Today, there are about 75,000 employers on the National Internship Portal, where the requirements for 25 lakh internships have been posted so far,” he informed. The prime minister urged the industry and educational institutions to make maximum use of the portal and further expand the culture of internship in the country.

Fort Lake and Rain Harvesting Pit:

On the top of hill fort rain harvesting pit is present which was used as drinking water source in olden days. In front side of fort lake is present with an area of 5 acres, which was used for storage and utilized as drinking water by surrounding villages. Now rain harvesting pit is existing and it is used as drinking water source for animals. At present lake is completely drowned and it is filled with weeds and waste.

Group Photo and Photos of the Nagula Water Body

Results of Nagula Well

The Samples are collected at the water body and experiments are conducted at the Laboratory in the College with help of Lecturer's, the following results were obtained after conducting the experiment on water sample collected from Nagula well.

pH meter report :-

pH paper:- The pH paper shows dark green reading. Hence it's pH is 7.5.
pH meter:- The pH of the water sample shown by pH meter is 8.0.

Conductivity :- The conductivity of the given water sample is 2.6 ms.

Alkalinity test :- Total alkalinity of the given water sample is 208 ppm.

Hardness Test :- The hardness of the given water sample in terms of CaCO₃ equivalent is 180ppm.

Dissolved Oxygen test :- The total dissolved oxygen in the water sample is 3 ppm (or) mg/lit.

Why Cybersecurity Matters

Rising Costs	Data Breach Impact	Workforce Gap
Cybercrime costs will hit \$10.5T annually by 2025 worldwide.	Average breach costs \$4.45 million in 2023.	3.5 million cybersecurity jobs unfilled globally by 2025.

Cybersecurity Techniques

Firewalls
Monitor and filter network traffic to block threats.

Encryption
Converts data into unreadable formats like AES-256.

Intrusion Detection Systems (IDS)
Detect unauthorized or malicious activity within networks.

User Authentication
Includes passwords, biometrics, and multi-factor verification.

Introduction to ServiceNow

- ServiceNow is mainly used as a Cloud based tool to manage incidents, problems and changes.
- ServiceNow is a comprehensive cloud-based platform designed to help organizations manage and streamline their digital workflows and enterprise operations
- It's like a digital helper that keeps track of and resolves problems and requests within a company, ensuring that issues are handled quickly and efficiently.
- The platform integrates with numerous systems and applications, allowing for seamless automation and enhanced productivity across different tools and departments.

SURE ProEd PULSE

Issue #25.4
1st September, 2025

From Chief Guest's Keynote Address,
Dr. Shashank Shah

At the SURE ProEd Anniversary event, our Chief Guest, Dr. Shashank Shah, delivered an inspiring keynote that highlighted the transformative role of education and skilling in shaping India's future. Dr. Shah commended the Tata Group's contribution to the growth of SURE ProEd and appreciated the efforts of SURE ProEd in enhancing employability among youth. He emphasized that skilling education is the true pathway to a Viksit Bharat—a vision not only of a \$30 trillion economy but also of an inclusive nation where rural and urban youth rise together. Reflecting on India's strengths, he pointed to the demographic dividend—with 60% of the population under the age of 35—and the vast human capital pool in STEM disciplines, which positions India as a potential global supplier of skilled talent. Dr. Shah also drew attention to the energy quadrilemma, underscoring the need to balance security, access, affordability, and sustainability. He called for upgrading national capabilities to achieve net-zero status and become a truly green country. Integrating skills to address climate disruption, he noted, would not only safeguard the environment but also strengthen India's journey toward becoming a developed economy. He stressed that industry partnership is vital for SURE ProEd to ensure real-world relevance and impact in skilling initiatives. Addressing the youth directly, Dr. Shah urged them to focus on four pillars—Knowledge, Skill, Balance, and Insight—as foundations for professional and personal growth in today's VUCA world (Volatile, Uncertain, Complex, Ambiguous). His words reinforced the commitment of SURE ProEd to empower young people with the skills, values, and vision required to lead India and the world into a sustainable and prosperous future.

Dr. Shashank Shah emphasized on holistic approach, nurturing not only the IQ (Intelligence Quotient) but also the EQ (Emotional Quotient) and SQ (Spiritual Quotient) of students for success in both professional and personal life.

Release of Annual Report 2025

During the anniversary event, our Chief Guest, Dr. Shashank Shah, officially released SURE ProEd's 5th Annual Report. The report is a comprehensive reflection of our journey capturing achievements, milestones, and future ambitions. It also features heartfelt testimonials from our trainers and students, making it a true testament of our collective spirit.

COMMUNITY SERVICE HIGHLIGHTS

- Plantation Statistics: **1479** trees planted
- Blood Donations: **116** selfless donors
- Service to Senior Citizens: **292** citizens reached

Generous Hearts That Built Us" - A Podcast Series

As part of the anniversary celebrations, SURE ProEd proudly announced the launch of its new podcast series, "Generous Hearts That Built Us", on our official YouTube channel. This series is dedicated to honouring the many individuals—our advisors, trustees, trainers, students-turned-trainers, alumni, and volunteers—whose contributions have shaped the growth and spirit of SURE ProEd. Through heartfelt interviews, the series captures their experiences, stories, and reflections on this shared journey. It not only showcases the genesis and evolution of SURE ProEd but also seeks to build a deeper sense of oneness and belonging within our community. During the event, the trailer of the series was released, offering a glimpse of what's to come. The full podcasts will be released in an episode format in the days ahead, giving our community the opportunity to engage with these inspiring voices. We extend our sincere thanks to the SURE Productions team for their constant creativity, dedication, and effort in turning this vision into reality.

Celebrating stories, building community, and growing together the SURE ProEd Way.

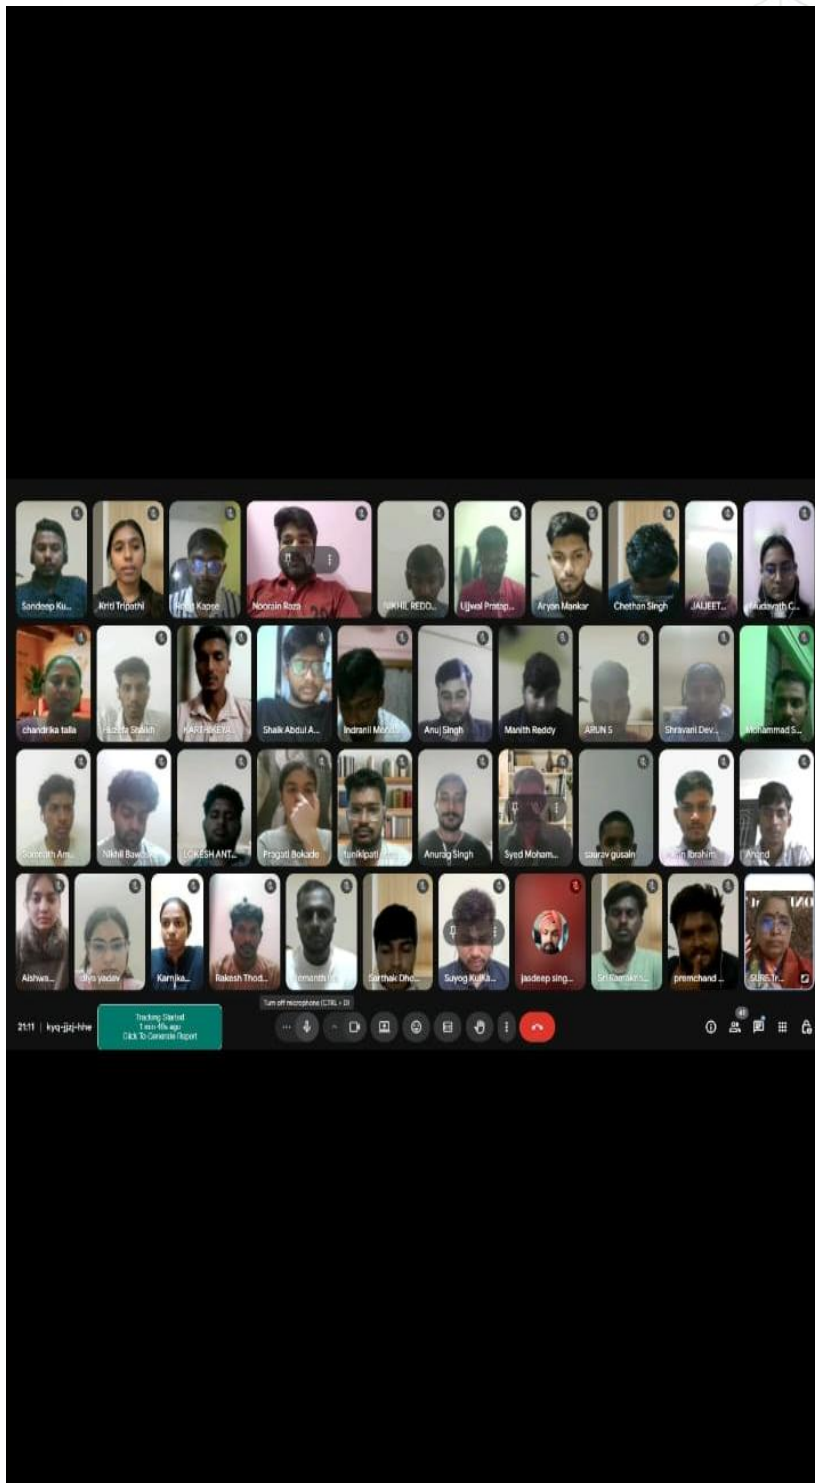

Generous HEARTS THAT BUILT US

66 Voice of Vision

Many of life's failures are people who did not realize how close they were to success when they gave up. True achievement often lies just beyond the moment we feel like quitting; persistence is the key.

SURE ProEd PULSE

Issue #25.6
October, 2023

sureproed2023@gmail.com
SURE ProEd for Rural Youth
SURE ProEd on YouTube

From Chief Guest's Address,
Dr. Chandrasekhar Buddha
CEO, Anuvadini AI, Ministry of Education
COO, AICTE, Ministry of Education
Government of India

At SURE ProEd 16th Graduation Ceremony we had the privilege of hosting Dr. Chandrasekhar Buddha, a visionary leader spearheading innovation and inclusivity at the Ministry of Education. In his keynote address, Dr. Buddha appreciated SURE ProEd for being a messenger of hope that empowers rural youth and stands as an example of "Sabka Saath, Sabka Vikas." He emphasized that India is now creating resources for the world, and initiatives like SURE ProEd play a crucial role in bridging the gap between students and industry, nurturing a future-ready workforce.

Highlighting the massive incentives announced by the Government to develop semiconductor manufacturing hubs, Dr. Buddha commended on SURE ProEd's focus on Semiconductor Workforce Development, aligning perfectly with India's national priorities. Sharing insights from his work at the Ministry of Education, he spoke about Anuvadini AI, a pioneering platform that works on vernacular inclusivity into the mainstream. Built on patented technology and trained on thousands of vernacular datasets, Anuvadini AI has enabled the creation of technical, diploma, and vocational training content in multiple Indian languages making education accessible to all.

Dr. Buddha also shed light on India's tremendous growth across logistics infrastructure and urged the youth to develop innovative solutions in supply chain management. He further advised students to learn a foreign language to enhance their global employability. He appreciated how SURE ProEd seamlessly blends Technology with Tradition, fostering holistic learning that keeps values and innovation hand in hand. Envisioning an era where India will soon bring home a Nobel Prize, he encouraged students to contribute not just to India's growth, but also to the progress of developing nations worldwide.

In conclusion, Dr. Buddha assured the Ministry of Education's full support to SURE ProEd and suggested the introduction of Design Thinking and Trading & Finance modules into its training framework to prepare learners for the multidimensional challenges of the modern world.

COMMUNITY SERVICE HIGHLIGHTS

Enrolment Policy at SURE ProEd

SURE ProEd receives thousands of applications each cycle across its six-month internship programs. Previously we have received over 8,000 for Generative AI, 6,000 for Integrated VLSI Design, and 5,000 for Python and Machine Learning. Given this overwhelming response, we have established a well-defined and strict enrolment policy that ensures transparency, merit-based selection, and uniform implementation across all domains and batches.

- Applications are accepted through AICTE Internships portal & SURE ProEd's website. This process is totally automated.
- Eligibility: Final-year B.Tech students & early postgraduate (M.Tech) students.
- Admission involves an online test, followed by shortlisting based on merit. A second merit list is released if seats remain.
- Selected candidates are added to official WhatsApp groups for schedules, guidelines, and updates.
- Each program includes 4 months of technical training and a 2-month capstone project.
- Offer letters are issued on request after 2 months of training, subject to performance and discipline. Please note that once an offer letter is issued, it must not be misused. Receiving an offer letter signifies your commitment to uphold all rules & discipline at SURE ProEd.

New Content Alert: Generous Hearts that Built Us

Two new episodes have been released under the podcast series "Generous Hearts that Built Us" by SURE Productions.

"A Tribute to Our Volunteer Trainers" is a heartfelt salute to our volunteer mentors the guiding lights who give their time and talent to shape lives. Their selfless spirit reminds us that teaching is the greatest form of giving. They stand as the true pillars of SURE ProEd, proving that passion and purpose can move mountains. Through their stories, we rediscover how one act of kindness can ignite a chain of learning and change.

Here in the next episode, "Alumni Stories that Inspire" our proud alumni share how SURE ProEd's mentorship and learning ecosystem helped them turn skills into success and purpose into careers. Their journeys reflect the power of perseverance, community, and guided growth. Each story is a reminder that with the right mentorship and mindset, dreams truly find direction.

Learning with Purpose

In his inspiring reflection titled Mr. Debasish Sahu shares how his internship at SURE ProEd became a turning point in his professional and personal growth.

He describes the experience as transformative, crediting SURE ProEd for showing how selfless service can create meaningful impact. Under the guidance of dedicated mentors like Sri. Ravi Shankar and Sri. A. Srinivasulu, Debasish and his peers gained access to high-quality training in SQL and Power BI- entirely free of cost.

What deeply resonated with him was SURE ProEd's unique philosophy: while the courses come at no monetary cost, students "pay" through discipline and a commitment to serve society. This model, he says, not only develops technical competence but also nurtures a sense of social responsibility, motivating learners to apply their skills for the greater good.

For Debasish, SURE ProEd's approach has created a ripple effect of empowerment, where learning leads to service, and service fuels more learning. "I am grateful to be part of a program that blends knowledge with purpose," he concludes, "proving that education and service together can truly transform lives."

Progress & Impact Overview

- AICTE National Internship Portal team has successfully visited 800+ colleges across the country to conduct awareness and onboarding sessions, encouraging active participation of students and institutions in the internship ecosystem.
- 20,000+ phone calls has been received from students and institutions, with queries addressed promptly to ensure effective support and seamless user experience.
- More than 5000+ grievance were received through customer support portal, all of which have been efficiently addressed and resolved.
- During FY 2025-26, a total of 5700+ new companies have been onboarded onto the national internship portal, significantly expanding internship opportunities and enhancing industry-academia collaboration.

Strengthening Internship Outcomes

- The National Internship Portal is now also focusing on the next phase of impact by analyzing student internship dropout rates and working to improve the conversion of internships into employment opportunities.
- This effort will help strengthen student retention, improve internship completion, and create a stronger pathway from learning to livelihood.
